

B26T600

Handles 2:1 and 1:1 cartridge applications.

Introducing Albion's Multi-Component Dispenser for 300/300ml and 300/150ml Cartridges.

The "B26" Line competes with the best European and Asian imports and surpasses them with the integration of Albion's legendary quality and state-of-the-art engineering with the cost of an import!

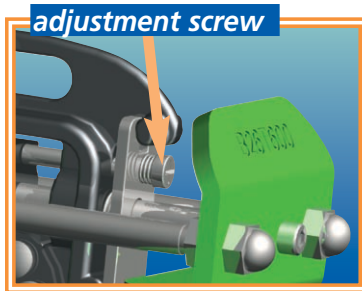

Compare the "B26" features with any other gun:

- **26:1 thrust ratio**— Makes dispensing the thickest material easier.
- **Longer dispensing tool life**— Albion's adjustment screw technology means increased

B26T600 shown set up for use with 300/150ml cartridge

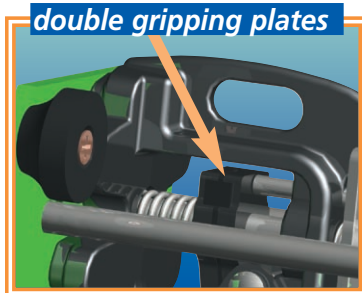

B26T600 accepts 300/300ml (1:1) and 300/150ml (2:1) cartridges from TAH, PlasPak, and others

adjustment screw

life of the gun—as the tool wears you can adjust the screw to eliminate wasted motion.

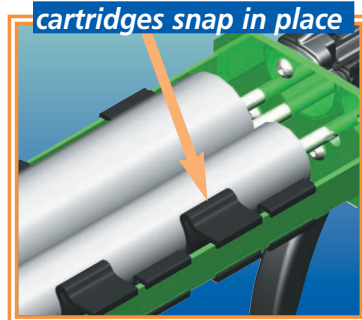

- **Increased durability**— Albion's legendary double gripping plates and steel trigger means increased durability; if it's dropped it won't break.

double gripping plates

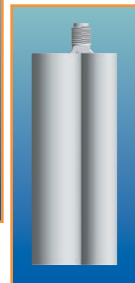

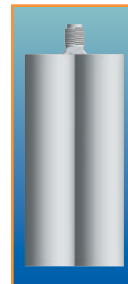

- **More user friendly**— Albion's unique design handles both 1:1 and 2:1 cartridges with easy changeover — cartridges simply snap into place.

- **Increased efficiency**— Albion's improved pump efficiency means you get the job done quicker. Designed so that it takes fewer pumps to empty a cartridge, you get more efficient use of hand motion.
